Process Coaching is a unique healing modality that empowers individuals to take responsibility for their feelings and process with greater love and acceptance. You will learn the powerfully effective tools and inner art of Process Coaching, which is a synthesis of Hypnotherapy, Neuro-Linguistic Programming, Shamanic Wisdom, Psychic Awareness, and the Intuitive Arts. As you bring the power of love and healing fully into your life, true magic and transformation happens.

Susan Bowman “Since discovering Process Coaching, I have allowed more love to permeate my being as well as ignite my deeper sense of purpose. With this awareness, I have been able to live more authentically. I am grateful for the experience that I have gained over the past 18 years in the field of psychology as I have supported others through life challenges. As I continually wake up to life being a ‘classroom’ where we are all exploring and learning, I allow so many possibilities for a deeper, richer life.”
